About The Summit

The Center for Chemical Process Safety (CCPS) has arranged the 8th Global Summit on Process Safety in the month of November 2024 in Mumbai, India.

Over the past several years Process Safety has taken on increased importance. Today companies large and small, in the traditional process industries and in emerging areas, all put a premium on improving their process safety performance. To help companies achieve this goal, the Center for Chemical Process Safety (CCPS) and Reliance Industries Ltd. are organizing the 8th Global Summit on Process Safety.

Launched in 2014, on the 30th anniversary of the Bhopal disaster, the CCPS Global Summit on Process Safety provides a common platform for process safety leaders from industry, government and academia to share advancement in the field, both through formal presentations and informal discussions. The conference covers topics like committed culture, asset integrity management, operational excellence and metrics for process safety performance improvement. Sponsors establish themselves as leading supporters of these important efforts in the minds of the region's leading process safety professionals.

About CCPS

CCPS is a not-for-profit corporate membership organization within AIChE that identifies and addresses process safety needs in the chemical, pharmaceutical, and petroleum industries. CCPS brings together manufacturers, government agencies, consultants, academics, and insurers to lead the way in improving process safety. Members working in project subcommittees define and develop useful, time-tested guidelines with practical applications running the gamut from human factors to qualitative and quantitative risk analysis to security vulnerability to an inherently safer design. With more than 100 publications, CCPS is at the forefront of efforts to improve process safety performance.

More information about CCPS is available at aiche.org/ccps

Vision

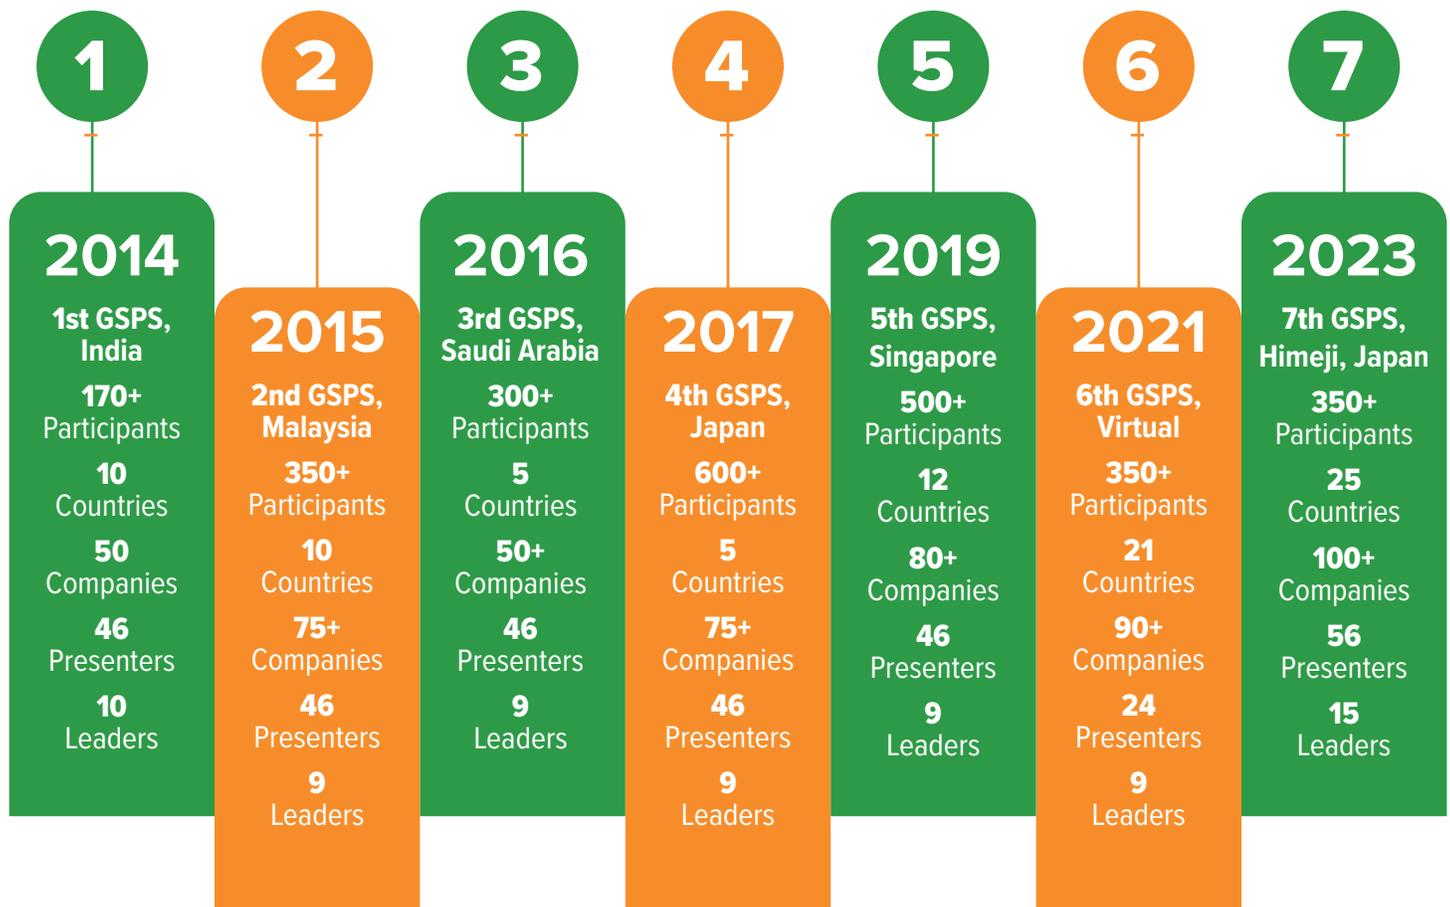

“World Without Process Safety Incident”

Mission

- Serving as a premier worldwide resource for Process Safety knowledge and understanding
- Advancing Process Safety culture, technical concepts and management practices
- Enhancing individual & organizational Process Safety competency
- Fostering collaboration within and across organizations, at all levels
- Promoting Process Safety as a key societal value and foundation for responsible, sustainable operation

Benefits for Sponsor

All levels of sponsorship are customizable to meet your budget and goals for the meeting. Please do not hesitate to ask if you are interested in alternate means of recognition. All sponsorships include the core benefits outlined below.

Global Exposure

With attendees from 20 plus countries across the globe, sponsoring the summit allows organizations to gain international visibility and exposure. This global reach can be valuable for companies seeking to expand their presence and network with professionals from different regions.

Targeted Audience

The summit attracts a wide range of attendees, including leadership-level personnel and senior process safety professionals from various countries. Sponsoring the event provides direct access to decision-makers and influential individuals responsible for process safety within their organizations.

Thought Leadership and Expertise

By sponsoring the summit, organizations can establish themselves as thought leaders and experts in the field of process safety. You can share your knowledge and expertise through exhibits or speaking opportunities during the summit.

Benefits for Sponsor

All levels of sponsorship are customizable to meet your budget and goals for the meeting. Please do not hesitate to ask if you are interested in alternate means of recognition. All sponsorships include the core benefits outlined below.

Networking Opportunities

The summit brings together professionals from diverse backgrounds, offering ample networking opportunities. Sponsors can engage with attendees during sessions, breaks, and social events, fostering meaningful connections with potential clients, partners, and industry peers.

Brand Visibility

Sponsoring the event provides prominent brand visibility throughout the summit, including logo placement on marketing materials, websites, banners, and signage. This exposure helps increase brand recognition and awareness among a highly targeted audience.

Product or Service Showcase

Sponsors can showcase their products, services, and solutions through exhibition spaces or dedicated booths, allowing them to demonstrate their offerings to a qualified audience actively seeking process safety solutions. This can generate leads and drive business opportunities.

Benefits for Sponsor

All levels of sponsorship are customizable to meet your budget and goals for the meeting. Please do not hesitate to ask if you are interested in alternate means of recognition. All sponsorships include the core benefits outlined below.

Industry Recognition

Sponsoring a reputable event like the CCPS Global Summit on Process Safety can enhance an organization's credibility and reputation within the industry. Being associated with a well-regarded event can boost brand image and demonstrate a commitment to advancing process safety practices.

Collaboration Opportunities

Sponsors can identify potential collaboration opportunities with other organizations attending the summit. Valued collaborations may arise from discussions, enabling sponsors to leverage shared expertise and resources to drive innovation and business growth.

Knowledge Exchange

Sponsoring the summit facilitates knowledge exchange between industry professionals and organizations. It provides a platform to learn from experts, participate in discussions, and gain insights into the latest trends, challenges, and advancements in process safety.
